Star Nail International 29120 Avenue Paine, Valencia, CA 91355

Set Sail with Elaine Watson for an Educational Nail Seminar during a Mediterranean Sea Cruise

This 10-day seminar is packed full of hands-on nail classes, great food and hot travel ports!

Valencia, CA – May 1, 2011

Set sail with Elaine Watson aboard a commercial cruise ship for a second chance of a lifetime learning-experience once again! The first cruise was so successful that it sparked a second trip. Nail Evolution, the exclusive Italian Distributor for Cuccio Naturalé, has invited Elaine back to teach educational workshops during a cruise along the Western Mediterranean Sea. Nail technicians will sharpen their skills in the following techniques: Eco Soak Off UV Nail Color, how to turn ordinary manicure and pedicures into extraordinary spa services using Cuccio Naturalé spa products and how to turn Cina Nail art services into simple and profitable services.

The cruise ship plans to set sail October 17, 2011 and stops in historical places such as Savona, Italy; Casablanca, Morocco; Cadiz, Valencia, and Barcelona, Spain; with a return to Savona on October 26, 2011. Watson stated, "I am very excited about traveling to a part of Europe that I have never been to. It is such a great learning venue. A typical international class with me is one full day. Cruise guests will get the opportunity to have 10 full days of information with not only me, but with other highly-respected professionals in the industry. This kind of attention from top International Educators is totally unheard of! I'm really happy that I'll have the time to really spend quality time with each cruise guest covering education and hands-on training."

Elaine has traveled all over the world giving insight on ways to make the nail business a more profitable aspect of the salon or spa. Log on today to find out more details on how to set sail with some of the top industry leaders: <http://www.nailcruise.com/en/index.php>
